Cleanup Performed:

- Set Date column as “date” data type, Sale Price column as “accounting” data type
- Fixed date notation to ensure all values are recognized as dates (replaced “.” with “/”)
- Fixed dates listed as 1/41/2022 to 1/4/2022, replaced 2023 dates with 2022
- Fixed typos in Item and Category columns using replace
- Added missing decimal places for Sale Price column values
- Altered outlier Sale Price column values to match values of identical items in the ledger

Formulas Used (first cell in column):

- Profit: `=D2-XLOOKUP([@Item],'Item Look Up Table'!A:A,'Item Look Up Table'!B:B)`
- Calories: `=XLOOKUP([@Item],'Item Look Up Table'!A:A,'Item Look Up Table'!C:C)`
